

USB Connect Energy Usage Monitor

fe: 02.00.04EN / be: 02.00.06EN

[New chart](#) [Settings](#)

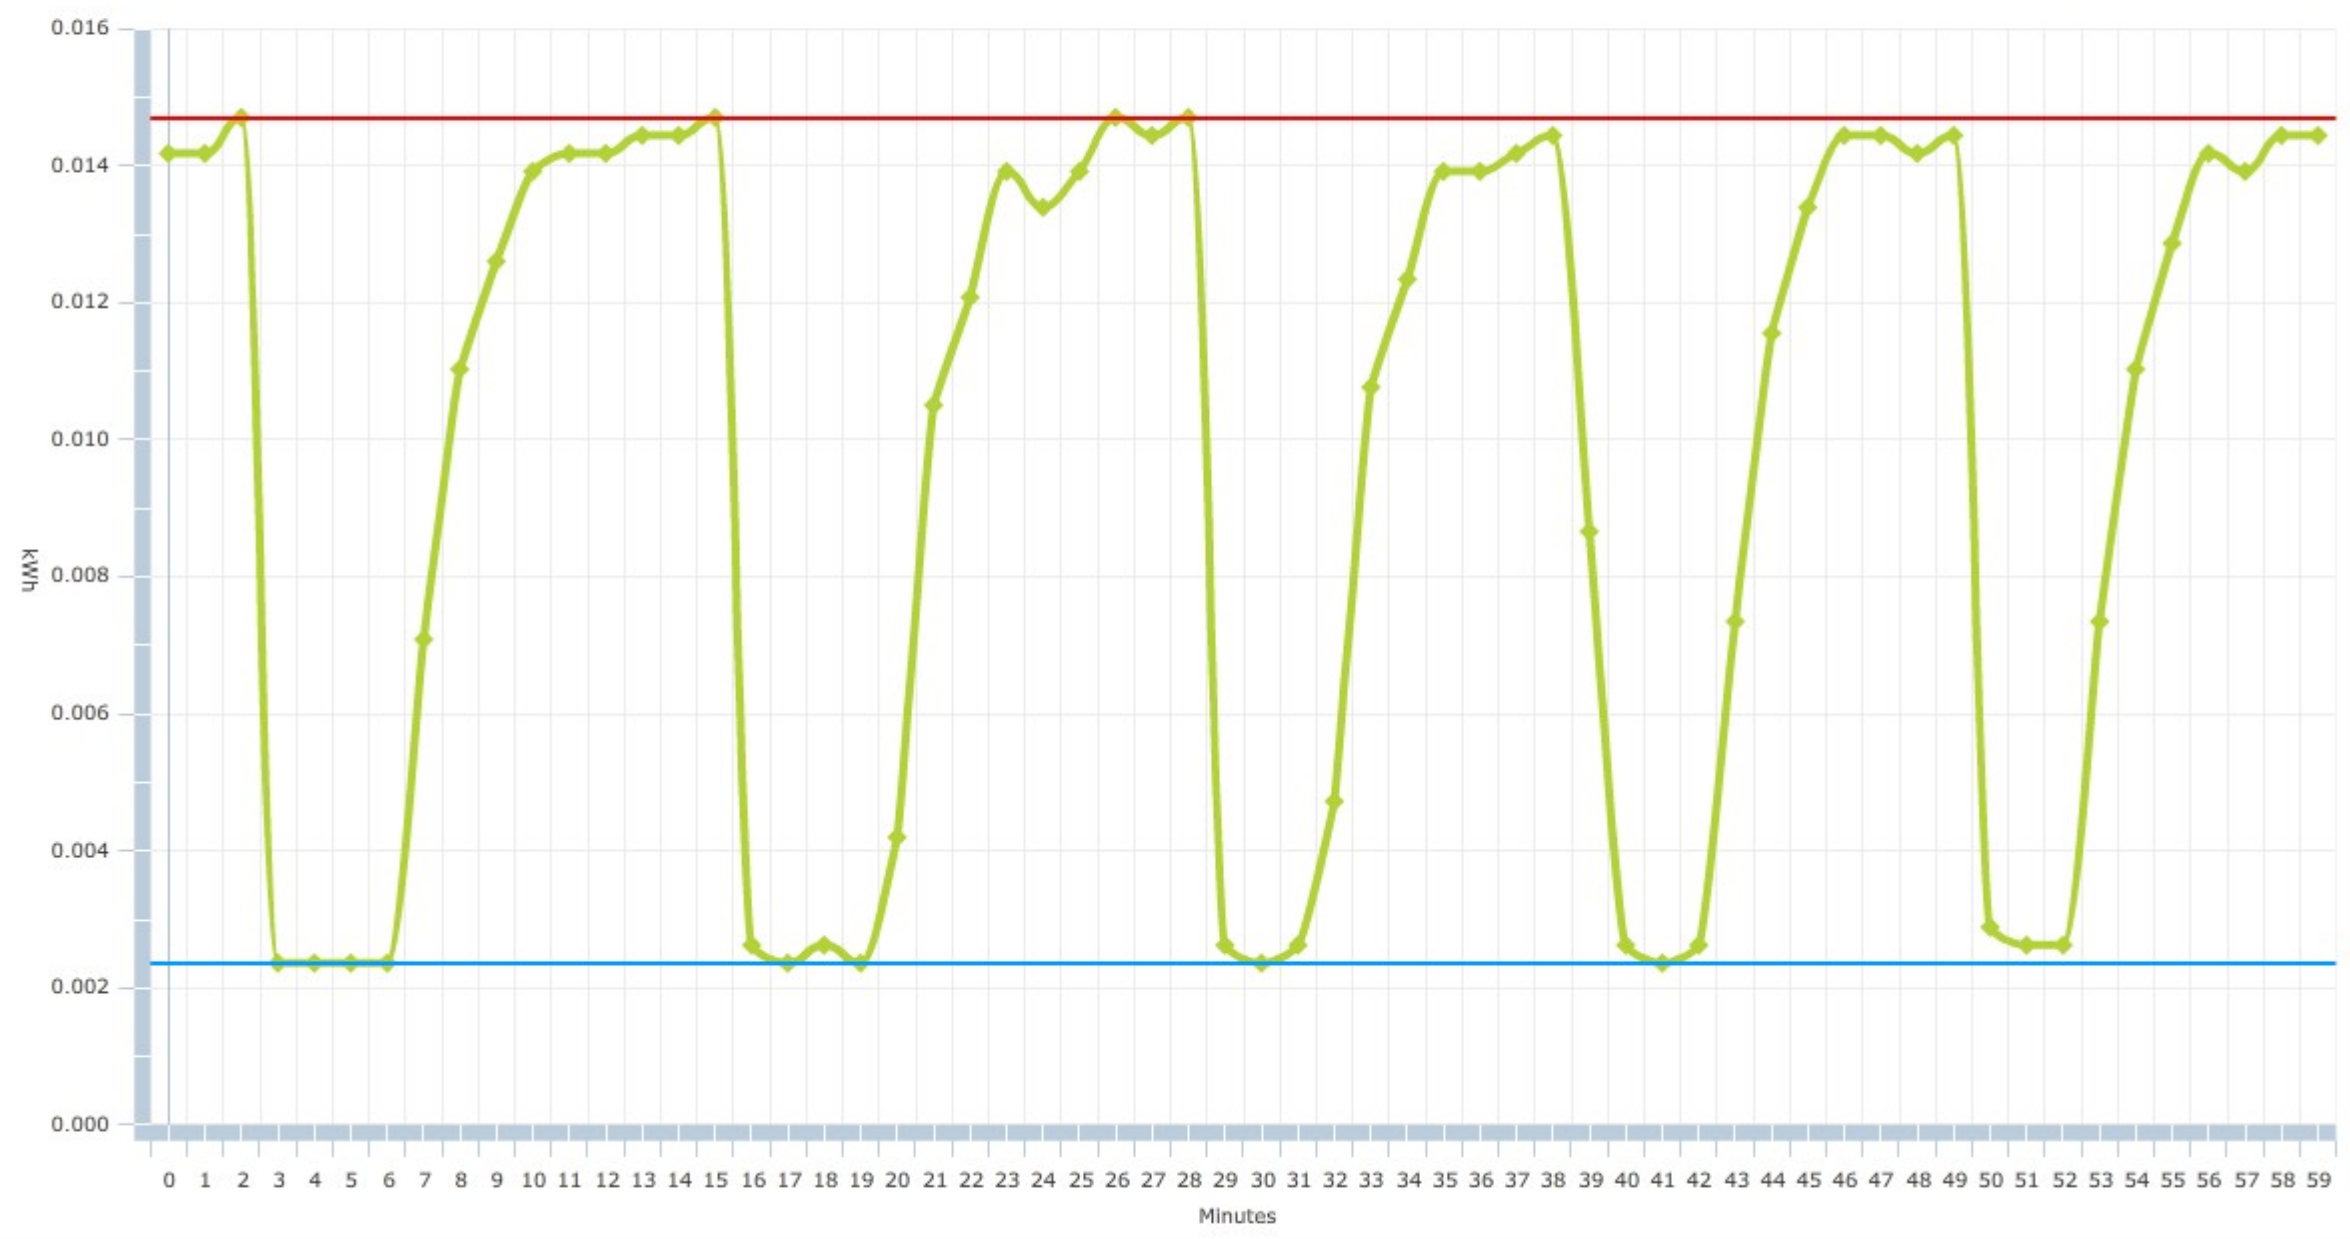

Add chart windows to query the data collected from the power transmitters in your home. Adding several charts at the same time allows you to compare consumption from different devices, date ranges and tariffs. The maximum number of charts that can be opened is ten, with four of these charts being displayed on screen at one time.

History usage [03/12/2011 00:00 - 03/12/2011 00:59]
